**Board of Supervisors Workshop**

**March 18, 2021 - 6 pm**

**\*Feasibility Study Workshop\***

The purpose of this study would be to evaluate what we have, what we need now, and what we will need in the future. We have two Architect Firms presenting tonight.

**Kimmel Bogrette** – Presenting for Kimmel Bogrette are Matt McQuaide and Martin Kimmel.

They stated that a feasibility study takes roughly 90 days. Hampden Township just opened their new build that they did. Kimmel Bogrette is PSATS preferred. It was asked if the Township decided to move forward with Kimmel Bogrette for the build process as well, is there a discount? Yes, if Kimmel Bogrette does both the feasibility study and the build, 50% of the original fee is refunded as a credit on the billing. Fees are all inclusive.

**Buchart Horn** – presenting for Buchart Horn are Angie Garrison and Scott Loercher.

They walked us through their presentation including recent examples of current projects they are working on/ have completed. Many showed examples of Public Works facilities and differences for the design of that type of facility.
